

ARTSTAR CUSTOM PAINTWORKS

Art For Architecture | Collectible | Inspired

Our hope is that everyone is safe and everyone's family is well. Thank you for your continued efforts in making sure our job sites are as safe as possible.

To ensure the safety of our team and clients every employee and sub must wash their hands with soap upon arrival. Additionally wear a face mask and gloves while on site. There are no exceptions to this rule. If one of our team members has a temperature of over 100 we require that employee to leave the site immediately. All surfaces and utensils then will need to be wiped down with a CDC approved cleaner. Additional cleaning is happening daily inside our studio of utensils and equipment throughout the day.

We will be following the below rules from the CDC. If someone has a fever they are not to return to the job site until ALL the following standards listed below are met. We trust that any employee or sub that does not feel well in the morning will take their own temperature prior to arriving at the job site. Further information can be found here:

<https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/steps-when-sick.html>

We are following these strict guidelines with our team; have had no fever for at least 72 hours (that is three full days of no fever without the use medicine that reduces fevers) AND other symptoms have improved (for example, when your cough or shortness of breath have improved) AND at least 7 days have passed since the first symptom

We are committed to continuing the current and future projects. Together we will get through this!

Stay well,

Kelly & the ArtStars
